

## Brian Kronberg

---

VP of Development  
Brightline

Brian is responsible for overseeing all of Brightline's development and construction initiatives throughout Florida. He leads a cross functional team that is responsible for expanding and improving Brightline's system, which includes the development of new train stations in the Treasure Coast and Cocoa, a commuter rail system in Miami-Dade and Broward counties, adding additional safety improvements along the corridor and the company's expansion to Tampa. He manages the team responsible for site acquisition, design, construction, schedule, budget, quality control, environmental, and implementation of safety measures.

Brian has been with Brightline since the beginning of the organization and has played an important role in all aspects of the company with a primary focus on station and infrastructure development. Early in the project, Brian assembled the necessary land for the train stations, transit oriented development (TOD) projects, as well as the land needed to construct the rail infrastructure. Brian was instrumental in the development of the MiamiCentral Station and most recently led the company's successful expansion into Aventura and Boca Raton with the addition of two new stations.

Prior to joining Brightline in 2012, Brian was a project manager at Flagler Development where he developed large scale business parks which included several million square feet of industrial warehouses.

Brian holds a Bachelor of Science in Management and Finance from Tulane University and an MBA from University of Miami.
